DEDICATION

MR. E. L. FARR

To one who deserves the honor, we dedicate the 1957 Bengal.

This dedication is but a small token of our heartfelt thanks for his exceptional understanding, guidance, leadership, inspiration, and ability as an administrator and a teacher.

May time continue to smile kindly on the efforts of the dedicatee to make better schools and a better world to live in.

Con mucho gusto
E. L. Farr

FOREWORD

Here is your 1957 BENGAL. The members of the staff have endeavored to record the most important curricular and extracurricular events of the year.

This year has been filled with many happy events that will be relived many times in your memories.

We extend our sincere appreciation to the administrators, faculty members, and students who have helped in making this a better yearbook.

LIBRARY LANGUAGE ARTS MUSIC

The library is a resource center of instructional materials for the entire educational program and is an agency which helps students to use the library materials and facilities actively. The library provides materials for reference use, for class work, and for personal enjoyment and satisfaction without relation to assignment.

The language arts curriculum consist of courses, activities, and units of instruction which are designed to develop communication, skills in reading, writing, and speaking which are of value to all students in their personal, social, and occupational life.

This department attempts to instill in the student a sympathetic understanding of the peoples of the world as well as the knowledge of their culture.

The department consists of 4 years of English, 2 years of Spanish and approximately 300 students taking the various courses.

EARLINE BLAIR, B.S., M.S.
Librarian

NATURAL SCIENCE AND SOCIAL SCIENCE

The Social Science department has approximately 250 students. This department offers three credits-World History, American History, Civics, and Texas History. Two and one-half credits are required for graduation.

The objectives of this department are to teach students to understand the rights and duties of a citizen in a democracy, to promote international understanding, to acquire an understanding of world problems, and to think critically.

In the study of Natural Sciences one develops the habit of accurate observation and appreciation of objects encountered in early life, develops reflective thinking, and learns how to arrive at conclusions.

The Science department offers six credits-Physics, Chemistry, General Science, and Biology. Two credits are required for graduation. Scattered throughout the department are approximately 110 students taking science.

*Sincerely
Jerry Wilson*

TRAVIS ELLIS, B.A.
Physics, Chemistry, Civics

COMMERCIAL AND MATHEMATICS DEPARTMENTS

The Commercial Department prepares students for employment upon leaving high school, trains them for advanced college courses, and gives basic training in typing for personal use.

A total of 5 units of credits are offered including typing, shorthand, bookkeeping, junior business training, and commercial arithmetic. Three teachers are instructing approximately 150 students in the various courses.

Three instructors strive to provide learning experiences which will be of most value to the 215 students in the regular mathematic courses. This department offers 1 unit in general math, 2 units in algebra, 1 unit in plane geometry, $\frac{1}{2}$ unit in solid geometry, and $\frac{1}{2}$ unit in trigonometry.

Our whole business life depends on the knowledge and application of mathematical and commercial principles. The power to think logically, quickly, and clearly, so essential to all professions, is developed by mathematics.

HESTELINE BURRUOGHS, B.S.
Mathematics

Training students for useful living is the major objective of the Vocational Departments which include homemaking, agriculture, mechanical drawing, and metal shop.

Some of the purposes in teaching homemaking are to give girls training and opportunity to develop skills, gain knowledge, and to accept responsibility in the different areas of the home and family life education.

Two teachers direct approximately 65 students in a program including sewing, foods, nursing, teas, banquets, and displays.

Three credits are available in agriculture which includes 25 boys. To familiarize the boys with agriculture and to establish them in the field are the general aims carried out by the instructor.

Outstanding merits have been achieved in poultry and livestock judging.

Two vocational teachers instruct students in mechanical drawing, sheet metal, auto mechanics, and welding.

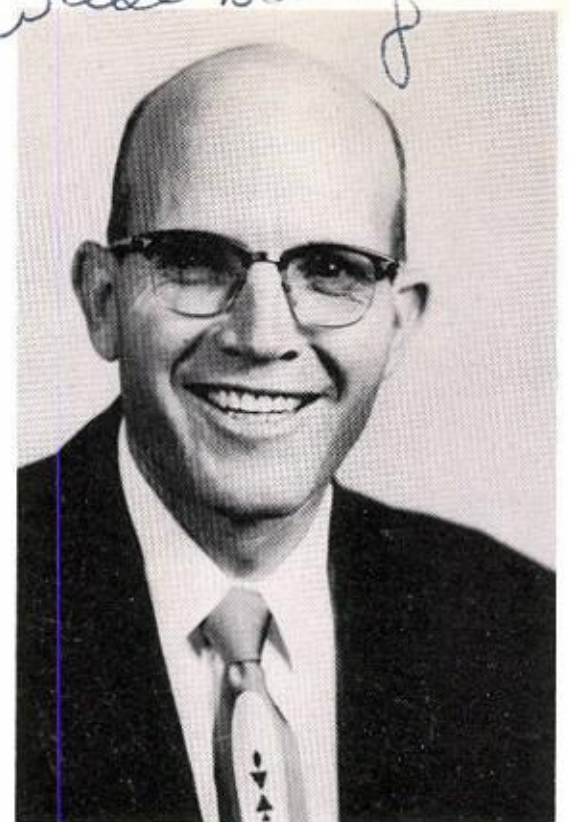

This department offers 1 year of mechanical drawing, 2 years in metal shop and has 48 students.

DEMOCRATIC PRINCIPLES ARE USED IN SELECTING
THE ELECTRA HIGH SCHOOL FAVORITES,
HOMECOMING QUEEN AND WHO'S WHO

The Electra High School Homecoming Queen was nominated by the Senior Class and elected by the popular vote of the student body.

Mr. and Miss Electra High and Typical Boy and Girl were nominated and elected by secret ballot of the student body. In selecting Mr. and Miss E. H. S., the students considered scholarship, citizenship and character.

The V. I. C., F. F. A. and F. H. A. Sweethearts were nominated and elected by their organizations. The Basketball Sweetheart was selected by the popular vote of the "A" and "B" basketball teams.

The four classes elected by secret ballot two students from each class as their class favorites.

Members of the Who's Who were nominated by a committee of five faculty members and elected by a majority vote of the entire faculty. The qualifications which determined the election of these students are moral standards, scholastic standing, co-operation with the teachers and students, outstanding achievements, and personality traits.
